INDEPENDENT AUDITOR'S REPORT

Horry - Georgetown Commission for Technical Education
Horry - Georgetown Technical College
Conway, South Carolina

We have audited the accompanying basic financial statements of Horry - Georgetown Technical College, a member institution of the South Carolina Technical College System, as of and for the years ended June 30, 2010 and June 30, 2009, as listed in the table of contents. These financial statements are the responsibility of the College's management. Our responsibility is to express opinions on these basic financial statements based on our audits. We did not audit the financial statements of Horry - Georgetown Technical College Foundation, Inc. which represents 100 percent of the discretely presented component unit presented in the financial statements. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion on the basic financial statements insofar as it relates to the amounts included for Horry - Georgetown Technical College Foundation, Inc. as a discretely presented component unit, is based solely on the report of other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our report and the report of other auditors, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of Horry - Georgetown Technical College, as of June 30, 2010 and June 30, 2009, and the respective changes in the financial position and cash flows, where applicable, thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 28, 2010 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information on pages 4 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Horry - Georgetown Technical College's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements of Horry - Georgetown Technical College. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied by us and other auditors in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our report and the report of other auditors, the information is fairly stated in all material respects, in relation to the financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of Horry-Georgetown Technical College offer users and other readers of the College's financial statements this narrative overview and analysis of its financial activities for the fiscal years ended June 30, 2010 and June 30, 2009. This discussion and analysis should be read in conjunction with the consolidated financial statements and the footnotes thereto, which follow this section.

The financial statement presentation format provides a comprehensive, entity-wide perspective of the College's assets, liabilities, net assets, revenues, expenses, changes in net assets, and cash flows. The financial statements are designed to emulate corporate presentation models whereby all College activities are consolidated into one total. The Statement of Net Assets combines and consolidates current financial resources (short-term spendable resources) with capital assets and discloses any debt obligations.

The Statement of Revenues, Expenses, and Changes in Net Assets focuses on both the gross costs and the net costs of College activities which are supported substantially by property taxes, state allocation, state and federal grants and contracts, student tuition and fees and auxiliary enterprise revenues. This approach is intended to summarize and simplify an analysis of costs for various College services to students and the public.

As additional information, financial statements for the Horry-Georgetown Technical College Foundation (The Foundation) are also included. All financial activities and balances of the Foundation are disclosed as a discretely presented component unit.

Financial Highlights

- The total net assets of the College at June 30, 2010, increased to \$69,325,798 from \$59,770,768 during the fiscal year. Of this amount, \$27,175,327 (unrestricted net assets) may be used to meet the College's ongoing obligations.
- During the year, the College's allocation from the State decreased by \$1,706,987 or 18.5%. The level of State funding received by the College in 2010, in absolute dollars, has not been this low since 1997.
- In spite of unprecedented reductions in State support, the College was able to increase its net assets. This increase was driven by ongoing enrollment growth, nominal tuition increases, receipt of the local \$.01 (penny) sales tax proceeds, College-wide cost reduction initiatives, and receipt of various federal, state and private grants.

Overview of the Financial Statements

The College is engaged only in Business-Type Activities (BTA) that are financed in part by fees charged to students for educational services. Accordingly, its activities are reported using the three financial statements required for proprietary funds: Statement of Net Assets; Statement of Revenues, Expenses, and Changes in Net Assets; and Statement of Cash Flows.

The Statement of Net Assets presents the financial position of the College at the end of the current and prior fiscal years, and classifies assets and liabilities into current and non-current. The difference between total assets and total liabilities is net assets, which are displayed in three broad categories: Investment in Capital Assets (net of related debt), Restricted and Unrestricted. Net assets are one indicator of the current financial condition of the College, while the change in net assets is an indicator of whether the overall financial condition has improved or worsened during the year.

The Statement of Revenues, Expenses, and Changes in Net Assets is a statement of net income with an entity-wide perspective. Revenues and expenses are categorized by operating and non-operating, and expenses are reported by object type.

The Statement of Cash Flows will aid readers in identifying the sources and uses of cash by the major categories of operating, capital and related financing, non-capital financing, and investing activities. This statement also emphasizes the College's dependence on state and county appropriations by separating them from operating cash flows.

Financial Analysis

In addition to the financial information, charts and graphs are provided to enhance an understanding of the institutions financial condition and related changes from the prior fiscal year.

The previous schedule is prepared from the College's statement of net assets, which is presented on an accrual basis of accounting, whereby assets are capitalized and depreciated. Total assets increased by \$10,360,034 or 15.68% over prior year. The increase in total assets was primarily caused by an increase in cash and cash equivalents and short term investments of \$9,246,431 generated by enrollment growth, nominal tuition increases, and receipt of the local \$.01 (penny) sales tax proceeds.

Total liabilities increased by \$805,004 or 12.8% during the fiscal year. The change was due to an increase in the obligation to other agencies, primarily related to the Bridge Program with Coastal Carolina University.

Total net assets increased by \$9,555,030 or 15.99% during the fiscal year. As evidenced by this increase, the College continues to benefit from a sound financial position as assets substantially exceed liabilities.

Net Assets - End of Year	<u>\$ 69,325,798</u>	<u>\$ 59,770,768</u>	<u>\$ 9,555,030</u>	<u>15.99%</u>

As shown above, the College experienced an increase in net assets during 2010 in spite of record cuts in its State allocation. The increase in net assets of \$9,555,030 was facilitated by an increase in tuition revenues due to enrollment growth and receipt of the penny tax proceeds, which helped offset a substantial decrease in state funding.

For 2010, total operating revenue increased by approximately \$4,750,108 or 23.35% over prior year. Specifically, tuition revenue increased by \$4,247,961, or 32.6%, over the prior year as a result of enrollment growth.

State funding was reduced by \$1,706,987 or 18.58% during the year. The State funding received in 2010, in absolute dollars, has not been this low since 1997. In spite of state funding reductions, the college enjoyed a substantial increase in net assets during the year, primarily driven by enrollment gains and receipt of the penny tax proceeds.

On the page which follows is a graphical illustration of operating revenues and expenses.

Total Operating Expenses	<u>\$ 49,159,640</u>	<u>\$ 41,790,415</u>	<u>\$ 7,369,225</u>	<u>17.63%</u>

The following is a multi-year graphical trend of operating expenses by function.

Operating expenses, overall, for fiscal year 2010 increased by \$7,369,226 or 17.6% over the prior year. This change was a function of record enrollment growth which naturally increased instructional and scholarship (financial aid) costs.

The operation and maintenance of plant also increased by \$591,710 or 13.8% during the year. This fluctuation was driven by a series of building, infrastructure and HVAC system upgrades.

Analysis of Net Assets For the Years Ended June 30,

Total Net Assets	<u>\$ 69,325,798</u>	<u>\$ 59,770,768</u>	<u>\$ 9,555,030</u>	<u>15.99%</u>

Net assets may serve over time as a useful indicator of an entity's financial position. In the case of the College, assets exceeded liabilities by \$69,325,798 and \$59,770,768 at June 30, 2010 and 2009, respectively. This year-to-year increase in net assets of \$9,555,030 or 15.99% further validates the financial health and economic viability of the College.

Approximately 60% of the College's net assets at June 30, 2010 were invested in capital assets (land, land improvements, buildings and improvements, and equipment). The College uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

At June 30, 2010, less than 1% or \$148,211 of the College's net assets are restricted for revolving loan funds and by other grantor imposed restrictions. Approximately 40% or \$27,175,327 of the College's net assets are unrestricted and may be used to meet the College's ongoing obligations.

Net Capital Assets	<u>\$ 42,543,595</u>	<u>\$ 42,461,504</u>	<u>\$ 82,091</u>	<u>0.19%</u>

As of June 30, 2010, the College had \$60,604,289 invested in capital assets, which represented a 3% increase over the prior fiscal year. The increase in net Capital assets of \$82,091 was primarily attributed to the initiation of several capital and construction projects during the fiscal year. Those projects included expanding existing academic facilities to accommodate enrollment growth.

Cash Flows
For the Years Ended June 30,

	<u>2010</u>	<u>2009</u>
Cash Flows from Operating Activities	\$ (23,361,888)	\$ (19,179,552)
Cash Flows from Non-Capital Financing Activities	30,851,661	22,587,317
Cash Flows from Capital and Related Financing Activities	1,844,276	94,929
Cash Flows from Investing Activities	<u>\$ (2,980,466)</u>	<u>\$ 1,391,353</u>

Cash - Beginning of Year	<u>\$ 13,099,015</u>	<u>\$ 8,204,968</u>
Cash - End of Year	<u>\$ 19,452,598</u>	<u>\$ 13,099,015</u>

The College enjoyed a \$6.35 million increase in cash during the fiscal year. The primary driver of this increase was record enrollment growth, which increased both tuition revenue and financial aid to students. The increase was also caused by receipt of American Reinvestment and Recovery Act (ARRA) funds of \$761,199 during the year.

Capital Asset and Debt Administration

The College completed a major HVAC upgrade on its Conway Campus during the year. This project had total costs of \$431,972, of which \$164,883 was funded by a grant from the S.C. Energy Department and \$41,221 in a mandatory loan as part of the grant.

The College reduced its total debt by \$100,216 during the fiscal year and had \$103,983 and \$437,352 in short term debt and long term debt obligations respectively.

The College was able to substantially increase its net assets during the year. This increase was achieved through enrollment growth, ongoing cost reduction initiatives, a nominal tuition increase and receipt of the \$.01 (penny) sales tax proceeds.

Economic Factors

Over recent years, the College has and continues to receive less than the Technical College System average in funding. This condition was exacerbated by the fact that, during the year, the College's State allocation was reduced by \$1,706,987 or 18.5%.

As a result of these State funding reductions, the College must rely more heavily on tuition revenue and other sources to offset the loss in State funding. This increased reliance on tuition revenue comes at the sacrifice of the College's financial ability to implement new programs, fund new facilities, and otherwise continue providing state-of-art educational and instructional equipment.

The College expects a continuation of greater than normal enrollment increases resulting from a combination of the State Lottery funding, service area population growth, and a significantly depressed local and national economy. The future impact of enrollment increases or overall economic outlook however, cannot be measured with any precision.

NOTES TO FINANCIAL STATEMENTS

HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations: Horry - Georgetown Technical College (the "College"), a member institution of the South Carolina Technical College System, provides a range of educational programs to meet the needs of the adult population of Horry and Georgetown counties. Included in this range of programs are technical and occupational associate degree, diploma and certificate curricula that are consistent with the needs of employers in the College's service area. As an integral part of this mission, the College provides a program of continuing education designed to satisfy the occupational demands of employers through retraining and upgrading skills of individual employees. The College also provides a variety of developmental education programs, support services and offerings to assist students in meeting their personal and professional educational objectives.

Reporting Entity: The financial reporting entity, as defined by the Governmental Accounting Standards Board ("GASB") consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be misleading or incomplete. Accordingly, the financial statements include the accounts of Horry - Georgetown Technical College, as the primary government, and the accounts of Horry - Georgetown Technical College Foundation, Inc. (the "Foundation"), its component unit. The College is part of the primary government of the State of South Carolina. However, based on the nature and significance of the Foundations's relationship with the State of South Carolina, the Foundation is not a component unit of the State of South Carolina.

The Foundation is a legally separate, tax-exempt component unit of the College. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The 32 member board of the Foundation is self-perpetuating and consists of friends of the College. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, that the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College. The Foundation is reported in separate financial statements because of the difference in its reporting model, as further described below.

The Foundation is a private not-for-profit organization that reports its financial results under Financial Accounting Standard Board ("FASB") Statements. Most significant to the Foundation's operations and reporting model are FASB Statement No. 116, *Accounting for Contributions Received and Contributions Made*, and FASB Statement No. 117, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the College's financial reporting entity for these differences. However, significant note disclosures to the Foundation's financial statements have been incorporated into the College's notes to the financial statements.

Financial Statements of the Foundation can be obtained by calling the Foundation at (843) 477-2116.

Financial Statements: The financial statement presentation for the College meets the requirements of Governmental Accounting Standards Board ("GASB") Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. The financial statement presentation provides a comprehensive, entity-wide perspective of the College's net assets, revenues, expenses and changes in net assets and cash flows that replaces the fund-group perspective previously required.

CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting: For financial reporting purposes, the College is considered a special purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. Student tuition and auxiliary enterprise fees are presented net of scholarships and fellowships applied to student accounts, while stipends and other payments made directly are presented as scholarship expenses. All significant intra-institutional transactions have been eliminated.

The College has elected not to apply Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989.

Cash and Cash Equivalents: For purposes of the statement of cash flows, the College considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State of South Carolina State Treasurer's Office are considered cash equivalents.

Investments: Deposits and investments for the College are governed by the South Carolina Code of Laws, Title 6, Chapter 5, "Investments of Funds by Political Subdivisions". The College has implemented GASB Statement No. 40, *Deposits and Investment Risk Disclosures - an amendment to GASB Statement No. 3*. This statement requires disclosures related to deposit risks, such as custodial credit risk, and investment risks, such as credit risk (including custodial credit risk and concentrations of credit risks) and interest rate risk. The College accounts for its investments at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statement of revenues, expenses and changes in net assets.

Accounts Receivable: Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. Accounts receivable also include amounts due from the Federal government, State and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the College's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Capital Assets: Capital assets are recorded at cost at the date of acquisition or fair market value at the date of donation in the case of gifts. The College follows capitalization guidelines established by the State of South Carolina. All land is capitalized, regardless of cost. Qualifying improvements that rest in or on the land itself are recorded as depreciable land improvements. Major additions and renovations and other improvements that add to the usable space, prepare existing buildings for new uses, or extend the useful life of an existing building are capitalized. The College capitalizes movable personal property with a unit value in excess of \$5,000 and a useful life in excess of two years and depreciable land improvements, buildings and improvements, and intangible assets costing in excess of \$100,000. Routine repairs and maintenance and library materials, except individual items costing in excess of \$5,000, are charged to operating expenses in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 15 to 50 years for buildings and improvements and land improvements and 2 to 25 years for machinery, equipment, and vehicles. A full year of depreciation is taken the year the asset is placed in service and no depreciation is taken in the year of disposition.

Deferred Revenues and Deposits: Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Deposits represent dormitory room deposits, security deposits for possible room damage and key loss, student fee refunds, and other miscellaneous deposits. Student deposits are recognized as revenue during the semester for which the fee is applicable and earned when the deposit is nonrefundable to the student under the forfeit terms of the agreement.

Compensated Absences: Employee vacation pay expense is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as a component of current and long-term liabilities in the statement of net assets and as a component of salary and benefit expenses in the statement of revenues, expenses, and changes in net assets.

Net Assets: The College's net assets are classified as follows:

Invested in capital assets, net of related debt: This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets - expendable: Restricted expendable net assets include resources in which the College is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Restricted net assets - nonexpendable: Nonexpendable restricted net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Unrestricted net assets: Unrestricted net assets represent resources derived from student tuition and fees, appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the College, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

The College policy for applying expenses that can use both restricted and unrestricted resources is to first apply the expense to restricted resources and then to unrestricted resources.

Nonexchange Transactions: Nonexchange transactions involving financial or capital resources are transactions in which the college either gives value to another party without directly receiving equal value in exchange or receives value from another party without directly giving equal value in exchange. The types of nonexchange transactions the college engages in include "Voluntary nonexchange transactions" (certain grants and donations), and "Imposed nonexchange revenue" (fines and penalties), and "Government-mandated nonexchange transactions."

Voluntary nonexchange transactions usually involve eligibility requirements that must be met before transactions are recognized. The eligibility requirements can include one or more of the following:

- a. The recipient has the characteristics specified by the provider.
- b. Time requirements specified by the provider have been met.
- c. The provider offers resources on a reimbursement basis and allowable costs have been incurred under the applicable program.
- d. The provider's offer of resources is contingent upon a specified action of the recipient and that action occurred.

HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Resources transmitted before the eligibility requirements are met are reported as advances by the provider and as deferred revenues by recipients.

Assets from imposed nonexchange revenues are recognized when an enforceable legal claim to the assets arise or when the resources are received.

Capitalized Interest: The College capitalizes as a component of construction in progress interest cost in excess of earnings on debt associated with capital projects. Therefore, capital asset values do include such interest costs. During the fiscal years ending June 30, 2010 and June 30, 2009, no interest costs were capitalized.

Income Taxes: The College is exempt from income taxes under the Internal Revenue Code.

Classification of Revenues: The College has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues generally result from exchange transactions to provide goods or services related to the College's principal ongoing operations. These revenues include (1) student tuition and fees received in exchange for providing educational services and other related services to students; (2) receipts for scholarships where the provider has identified the student recipients; (3) fees received from organizations and individuals in exchange for miscellaneous goods and services provided by the College; and (4) grants and contracts that are essentially the same as contracts for services that finance programs the College would not otherwise undertake.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions. These revenues include gifts and contributions, appropriations, investment income, and any grants and contracts that are not classified as operating revenue or restricted by the grantor to be used exclusively for capital purposes.

Sales and Services of Educational and Other Activities: Revenues from sales and services of educational and other activities generally consist of amounts received from instructional, research, and public service activities that incidentally create goods and services which may be sold to students, faculty, staff, and the general public. The College receives such revenues primarily from the following programs: dental hygiene, massage therapy, bakery and food programs.

Auxiliary Enterprises and Internal Service Activities: Auxiliary enterprise revenues primarily represent revenues generated by bookstore commissions and cafeteria and vending services. Revenues of internal service and auxiliary enterprise activities and the related expenditures of college departments have been eliminated.

Restricted Cash: The College has funds which were donated by private citizens to be used as short-term loans for students having financial difficulties. The loans are short-term and payable within 90 days. The restricted cash amount equals funds available at June 30, 2010 for such loans.

Component Unit: The Foundation maintains its accounts in accordance with the principles and practices of fund accounting. Fund Accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors. Accordingly, net assets and changes therein are classified as follows:

HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Permanently Restricted Net Assets: Permanently Restricted Net Assets are subject to donor-imposed stipulations that require them to be maintained permanently by the Foundation. Generally, the donors of these assets permit the Foundation to use all or part of the income earned on related investments for general or specific purposes.

Temporarily Restricted Net Assets: Temporarily Restricted Net Assets are subject to donor-imposed stipulations that will be met by actions of the Foundation and/or passage of time.

Unrestricted Net Assets: Unrestricted Net Assets are not subject to donor-imposed stipulations that will be met by actions of the Foundation and/or passage of time.

Revenues are reported as increases in unrestricted net assets classification unless use of the related assets is limited by donor-imposed restrictions. Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized as revenue until the conditions on which they depend are substantially met. Contributions for in-kind gifts from outside sources are not recorded in the Foundation's financial records, but are accounted for and acknowledged separately.

Expenses are reported as decreases in unrestricted net assets as appropriate. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law.

Investments are reported at fair value based upon quoted market prices.

DEPOSITS

State law requires that a bank or savings and loan association receiving State funds must secure the deposits by deposit insurance, surety bonds, collateral securities, or letters of credit to protect the State against any loss.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the College will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party.

The College's bank balances on deposit were \$6,421,451 at June 30, 2010. Of these, \$2,741,547 were exposed to custodial credit risk as uninsured; however, were collateralized with securities held by the pledging institution but not in the College's name. The carrying value of these deposits was \$5,143,990. Restricted cash includes \$133,253 held for student loans.

Deposits - Discretely Presented Component Unit

Cash and cash equivalents consist of amounts on deposit, including interest-bearing deposits. The balances on deposit were insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC). Uninsured balances at financial institutions as of June 30, 2010 amounted to \$585,240. The balances at the brokerage firm are insured up to \$250,000 by the Securities Investor Protection Corporation (SIPC) with additional insurance provided by the brokerage firm through an excess SIPC policy. There were no uninsured investments at June 30, 2010.

INVESTMENTS

The College is authorized, by the South Carolina Code of Laws, Title 6, Chapter 5, to invest in obligations of the United States and its agencies, obligations of the State of South Carolina and its political subdivisions, collateralized or federally insured certificates of deposit, and collateralized repurchase agreements.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counter-party to a transaction, the College will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. The College does not have a formal investment policy that addresses custodial credit risk. Of the College's \$17,557,256 investment in repurchase agreements, \$17,557,256 of the underlying securities are held by the investments counter-party, not in the name of the College.

Interest Rate Risk

Interest Rate Risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment.

The College does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The College does not have an investment policy regarding credit risk.

The College's rated debt investments as of June 30, 2010, were rated by Standard & Poor's and are listed below using the Standard & Poor's rating scale.

Horry - Georgetown Technical College Rated Debt Investments

<u>Rated Debt Investments</u>	<u>Fair Value</u>	<u>AAA</u>	<u>Unrated</u>
Money Market Mutual Funds	\$ 1,178,588		\$ 1,178,588

NOTE 7 - PENSION PLANS

The Retirement Division of the State Budget and Control Board maintains four independent defined benefit plans and issues its own publicly available Comprehensive Annual Financial Report (CAFR) which includes financial statements and required supplementary information. A copy of the separately issued CAFR may be obtained by writing to Financial Services, South Carolina Retirement Systems, P.O. Box 11960, Columbia, South Carolina 29211. Furthermore, the Division and the four pension plans are included in the CAFR of the State of South Carolina.

Article X, Section 16, of the South Carolina Constitution requires that all State-operated retirement systems be funded on a sound actuarial basis. Title 9 of the South Carolina Code of Laws of 1976, as amended, prescribes requirements relating to membership, benefits, and employee/employer contributions for each pension plan. Employee and employer contribution rates for the South Carolina Retirement System and the Police Officers Retirement System are actuarially determined. Annual benefits, payable monthly for life, are based on length of service and on average final compensation.

South Carolina Retirement System

The majority of employees of the College are covered by a retirement plan through the South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Retirement Division, a public employee retirement system. Generally all State employees are required to participate in and contribute to the SCRS as a condition of employment unless exempted by law as provided in Section 9-1-480 of the South Carolina Code of Laws. This plan provides retirement annuity benefits as well as disability, cost of living adjustment, death, and group-life insurance benefits to eligible employees and retirees.

On July 1, 2006, the required employee contribution increased to 6.50 percent. Effective July 1, 2009, the employer contribution rate became 12.74 percent which included a 3.50 percent surcharge to fund retiree health and dental insurance coverage. The College's actual contributions to the SCRS for the three most recent fiscal years ending June 30, 2010, 2009, and 2008, were \$1,312,591, \$1,317,611 and \$1,272,632, respectively, and equaled the required contributions (excluding the surcharge) for each year. Also, the College paid employer group-life insurance contributions of \$21,306 in the current fiscal year at the rate of .15 percent of compensation.

Police Officers Retirement System

The South Carolina Police Officers Retirement System (PORS) is a cost-sharing multiple-employer defined benefit public employee retirement plan administered by the Retirement Division. Generally all full-time employees whose principal duties are the preservation of public order or the protection or prevention and control of property destruction by fire are required to participate in and contribute to the System as a condition of employment. This plan provides annuity benefits as well as disability and group-life insurance benefits to eligible employees and retirees. In addition, participating employers in the PORS contribute to the accidental death fund which provides annuity benefits to beneficiaries of police officers and firemen killed in the actual performance of their duties. These benefits are independent of any other retirement benefits available to the beneficiary.

Employees participating in the PORS are required to contribute 6.5 percent of all compensation. Effective July 1, 2008, the employer contribution rate became 14.15 percent which, as for the SCRS, included the 3.50 percent surcharge. The College's actual contributions to the PORS for the years ending June 30, 2010, 2009, and 2008, were \$14,116, \$12,876, and \$3,164, respectively, and equaled the required contributions of 10.65 percent (excluding the surcharge) for each year. Also, the College paid employer group-life insurance contributions of \$265 and accidental death insurance contributions of \$265 in the current fiscal year for PORS participants. The rate for each of these insurance benefits is .20 percent of compensation.

Optional Retirement Program

The State Optional Retirement Program (State ORP) was first established as the Optional Retirement Program for Higher Education in 1987. In its current form, the State ORP is an alternative to the defined benefit SCRS plan offered to certain state, public school and higher education employees of the State. The State ORP, which is administered by the South Carolina Retirement Systems, is a defined contribution plan. State ORP participants direct the investment of their funds into a plan administered by investment providers. The State assumes no liability for State ORP benefits. Rather, the benefits are the liability of the investment providers and are governed by the terms of the contracts issued by them.

ORP participation is limited to faculty and administrative staff of the State's higher education institutions who meet all eligibility requirements for membership in the SCRS. To elect participation in the ORP, eligible employees must irrevocably waive SCRS membership within their first ninety days of employment.

Under State law, contributions to the ORP are required at the same rates as for the SCRS, 9.06 percent plus the retiree surcharge of 3.50 percent from the employer in fiscal year 2010. A direct remittance is required from the employers to the investment provider for the employee contribution (6.5 percent) and a portion of the employer contribution (5 percent). Also, a direct remittance is required to the SCRS for a portion of the employer contribution (4.24 percent), which must be retained by SCRS.

Employees are eligible for group-life insurance benefits while participating in the State ORP. However, employees who participate in the State ORP are not eligible for post retirement group-life insurance benefits. For the fiscal year, total contribution requirements to the ORP were \$246,067 (excluding the surcharge) from the College as employer and \$173,099 from its employees as plan members. In addition, the College paid \$3,995 for group-life insurance coverage for these employees.

All amounts were remitted to the Retirement Division of the State Budget and Control Board for distribution to the respective annuity policy providers. The obligation for payment of benefits resides with the insurance companies.

Deferred Compensation Plans

Several optional deferred compensation plans are available to State employees and employers of its political subdivisions. Certain employees of the College have elected to participate. The multiple-employer plans, created under Internal Revenue Code Sections 457, 401(k), and 403(b), are administered by third parties and are not included in the Comprehensive Annual Financial Report of the State of South Carolina. Compensation deferred under the plans is placed in trust for the contributing employee. The State has no liability for losses under the plans. Employees may withdraw the current value of their contributions when they terminate State employment. Employees may also withdraw contributions prior to termination if they meet requirements specified by the applicable plan.

Teacher and Employee Retention Incentive

Effective January 1, 2001, Section 9-1-2210 of the South Carolina Code of Laws allows employees eligible for service retirement to participate in the Teacher and Employee Retention Incentive (TERI) Program. TERI participants may retire and begin accumulating retirement benefits on a deferred basis without terminating employment for up to five years. Upon termination of employment or at the end of the TERI period, whichever is earlier, participants will begin receiving monthly service retirement benefits which will include any cost of living adjustments granted during the TERI period. Because participants are considered retired during the TERI period, they do not make SCRS contributions, they do not earn service credit, and they are ineligible to receive group life insurance benefits or disability retirement benefits. Effective July 1, 2005, employees who choose to participate in the TERI Program will be required to make SCRS contributions. Due to the South Carolina Supreme Court decision in *Layman et al v. South Carolina Retirement System and the State of South Carolina*, employees who chose to participate in the TERI Program, prior to July 1, 2005 will not be required to make SCRS contributions.

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents. Horry-Georgetown Technical College contributes to the Retiree Medical Plan (RMP) and the Long-term Disability Plan (LTDP), cost-sharing multiple-employer defined benefit postemployment healthcare and long-term disability plans administered by the Employee Insurance Program (EIP), a part of the State Budget and Control Board (SBCB). Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires May 2, 2008 and after, retirees are eligible for benefits if they have established twenty-five years of service for 100% employer funding and fifteen through twenty-four years of service for 50% employer funding. Benefits become effective when the former employee retires under a State retirement system. Basic long-term disability (BLTD) benefits are provided to active state, public school district and participating local government employees approved for disability.

Funding Policies

Section 1-11-710 and 1-11-720 of the South Carolina Code of Laws of 1976, as amended, requires these postemployment healthcare and long-term disability benefits be funded through annual appropriations by the General Assembly for active employees to the EIP and participating retirees to the SBCB except the portion funded through the pension surcharge and provided from other applicable sources of the EIP for its active employees who are not funded by State General Fund appropriations. Employers participating in the RMP are mandated by State statute to contribute at a rate assessed each year by the Office of the State Budget, 3.50% and 3.42% of annual covered payroll for 2010 and 2009, respectively. The EIP sets the employer contribution rate based on a pay-as-you-go basis. Horry-Georgetown Technical College paid approximately \$595,039 and \$595,603 applicable to the surcharge included with the employer contribution for retirement benefits for the fiscal years ended June 30, 2010 and 2009, respectively. BLTD benefits are funded through a per person premium charged to State agencies, public school districts, and other participating local governments. The monthly premium per active employee paid to EIP was \$3.50 for the fiscal years ended June 30, 2010 and 2009.

Effective May 1, 2008 the State established two trust funds through Act 195 for the purpose of funding and accounting for the employer costs of retiree health and dental insurance benefits and long-term disability insurance benefits. The South Carolina Retiree Health Insurance Trust Fund is primarily funded through the payroll surcharge. Other sources of funding include additional State appropriated dollars, accumulated EIP reserves, and income generated from investments. The Long Term Disability Insurance Trust Fund is primarily funded through investment income and employer contribution.

One may obtain complete financial statements for the benefit plans and the trust funds from Employee Insurance Program, 1201 Main Street, Suite 360, Columbia, SC 29201.

NOTE 9 - CONTINGENCIES, LITIGATION, AND PROJECT COMMITMENTS

The College is party to various lawsuits arising out of the normal conduct of its operations. In the opinion of College management, there are no material claims or lawsuits against the College that are not covered by insurance or whose settlement would materially affect the College's financial position.

The College participates in certain Federal grant programs. These programs are subject to financial and compliance audits by the grantor or its representative. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Management believes disallowances, if any, will not be material.

The University Boulevard Entrance project will be funded by external funds.

NOTE 10 - LEASE OBLIGATIONS

Contingent Rentals

Contingent rentals are defined, for purposes of this audit report, as rental agreements that can be cancelled by the College at any point with no further financial obligation. The College currently has four types of contingent rentals specifically covering automobiles, office copiers, and facility usage. Details of those contingent rentals are as follows:

<u>Rental Agreement</u>	<u>Year</u>	<u>Expended for Contingent Rentals</u>

NOTE 11 - RELATED PARTIES

Certain separately chartered legal entities exist, whose activities are related to those of the College, primarily to provide financial assistance and other support to the College and its educational program. Financial statements for these entities are audited by independent auditors and retained by them. They include the Horry - Georgetown Technical College Foundation, Inc.

Management reviewed its relationship with the Foundation under the existing guidance of GASB Statement No. 14, as amended by GASB Statement No. 39. Because of the nature and significance of its relationship with the College, the

HORRY - GEORGETOWN TECHNICAL COLLEGE

Foundation is considered a component unit of the College.

Following is a more detailed discussion of this entity and a summary of significant transactions (if any) between this entity and the College for the year ended June 30, 2010.

The Horry - Georgetown Technical College Foundation, Inc.

The Foundation is a separately chartered corporation organized exclusively to receive and manage private funds for the exclusive benefit and support of the College. The Foundation's activities are governed by its Board of Directors who are not members of the College's Board of Directors.

The College recorded non-governmental gift receipts of \$1,237,124 from the Foundation in nonoperating revenues for the fiscal year ended June 30, 2010 and \$862,504 from the Foundation in nonoperating revenues for the fiscal year ended June 30, 2009. These funds were used primarily to support the College by way of program development, construction projects, and program support. The Foundation reimburses the College for any purchases made by the College on behalf of the Foundation. The College provides office space and support services to the Foundation. The value of this office space and support services was approximately \$3,600 for the years ended June 30, 2010 and June 30, 2009.

The Foundation's assets as of June 30, 2010 were \$8,781,495. As of June 30, 2010 the Foundation had \$671,346 in receivables, primarily due from donors (via pledges) and \$625,755 in outstanding liabilities primarily due to the College.

NOTE 12 - RISK MANAGEMENT

The College is exposed to various risks of loss and maintains State or commercial insurance coverage for each of those risks. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. Settlement claims have not exceeded this coverage in any of the past three years.

The State of South Carolina believes it is more economical to manage certain risks internally and set aside assets for claim settlement. Several State funds accumulate assets and the State itself assumes substantially all the risk for the following claims of covered employees:

- Unemployment compensation benefits
- Worker's compensation benefits for job-related illnesses or injuries
- Health and dental insurance benefits
- Long-term disability and group-life insurance benefits

Employees elect health insurance coverage through either a health maintenance organization or through the State's self-insured plan.

The College and other entities pay premiums to the State's Insurance Reserve Fund (IRF), which issues policies, accumulates assets to cover the risk of loss, and pays claims incurred for covered losses relating to the following activities:

- Theft, damage to, or destruction of assets
- Real property, its contents, and other equipment
- Motor vehicles and watercrafts
- Torts
- Natural disasters
- Medical malpractice claims against the Infirmary

HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 12 - RISK MANAGEMENT (continued)

The IRF is a self-insurer and purchases reinsurance to obtain certain services and to limit losses in certain areas. The IRF's rates are determined actuarially.

The College obtains coverage through a commercial insurer for employee fidelity bond insurance for all employees for losses arising from theft or misappropriation.

NOTE 13 - FEDERAL FAMILY EDUCATION LOAN

The College participates in the Federal Family Education Loan Program, which allows the College to disburse federal loans to students which are administered by the South Carolina Student Loan Corporation. The loan activity is not reported in the accompanying financial statements because the responsibility for administration and collection passes to the Guaranteed Student Loan Program after the loans are disbursed. The College made loan disbursements of \$26,243,488 under this program during the fiscal year 2010 and \$17,970,077 for the fiscal year 2009.

NOTE 14 - AGENCY FUNDS

The agency fund accounts for Student Activity Funds. The Student Activity Fund is used to account for assets held by the College as an agent for others, such as student organizations. These organizations exist with the explicit approval of and are subject to revocation by the College. Student Activity Funds are custodial in nature (assets equal liabilities).

The following is a summary of the changes in the Student Activity Fund:

NOTE 17 - STATE APPROPRIATIONS

State funds for operations for the South Carolina Technical College System are appropriated to the State Board for Technical and Comprehensive Education (the Board), and the Board allocates funds budgeted for the technical colleges in a uniform and equitable manner. Appropriations are recognized as revenue when received and available. Amounts that are not expended by fiscal year-end lapse and are required to be returned to the General Fund of the State unless the Board receives authorization from the General Assembly to carry the funds over to the next year.

The following is a detail schedule of State appropriations revenue reported in the financial statements for the fiscal year ended June 30, 2010 and June 30, 2009:

NOTE 21-STATE FISCAL STABILIZATION FUNDS (ARRA FUNDS)

The College incurred expenditures of \$767,199 during fiscal year 2010 under the American Recovery and Reinvestment Act (ARRA) funding. These funds were awarded to the College via pass-through funding from the U.S. Department of Education (State Fiscal Stabilization Funds), U.S. Department of Labor (Workforce Investment Act), and the U.S. Department of Energy (State Energy Program). ARRA funds were expended primarily for upgrades to the heating and air-conditioning on the Conway Campus, weatherization test house construction and upgrades to the College's enterprise software. In addition, ARRA funds provided scholarships, instructional equipment and services.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Horry - Georgetown Commission for Technical Education
Horry - Georgetown Technical College
Conway, South Carolina

We have audited the basic financial statements of Horry - Georgetown Technical College, as of and for the year ended June 30, 2010, and have issued our report thereon dated September 28, 2010. We did not audit the financial statements of Horry - Georgetown Technical College Foundation, which represents 100 percent of the discretely presented component unit presented in the financial statements. The financial statements of Horry - Georgetown Technical College Foundation were not audited in accordance with *Government Auditing Standards*. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the College's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that were reported to management of Horry-Georgetown Technical College in a separate letter dated September 28, 2010.

This report is intended solely for the information and use of the Area Commission, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Horry - Georgetown Commission for Technical Education
Horry - Georgetown Technical College
Conway, South Carolina

Compliance

We have audited the compliance of Horry - Georgetown Technical College with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of Horry Georgetown Technical College's major federal programs for the year ended June 30, 2010. The College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Horry - Georgetown Technical College's management. Our responsibility is to express an opinion on the College's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Horry - Georgetown Technical College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Horry - Georgetown Technical College's compliance with those requirements.

In our opinion, Horry - Georgetown Technical College complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of Horry - Georgetown Technical College is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the College's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A *deficiency* in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency or combination of deficiencies, such that there are is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Area Commission, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
